Web Developer with 1 years of experience designing, building, and maintaining responsive, accessible, and high-performance web applications using JavaScript, React, and Node.js. Strong foundation in both frontend and backend development, database design, and API integration. Looking to join [Company Name] as a [Target Role] to contribute technical skills toward delivering scalable, user-focused products while continuing to grow as a developer.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, PHP, Python, SQL

Frontend: React, Next.js, Redux, Tailwind CSS, Bootstrap, SASS, Responsive Design, Accessibility (WCAG)

Backend: Node.js, Express.js, REST APIs, GraphQL, Laravel, Authentication (JWT, OAuth)

Databases: MongoDB, PostgreSQL, Firebase

Methodologies: Agile/Scrum, Code Review, Test-Driven Development, Cross-functional Collaboration

Soft Skills: Communication, Problem-Solving, Time Management, Teamwork, Adaptability

WORK EXPERIENCE

Web Developer | Company Name | Dhaka, Bangladesh

January 2023 – Present

- Developed and maintained X production web applications using React and Node.js, serving X,000+ monthly active users.
- Reduced page load time by X% by implementing code splitting, lazy loading, and image optimization.
- Built and documented X REST API endpoints, cutting frontend integration time by X hours per sprint.
- Collaborated with designers and product managers in Agile sprints to deliver X features ahead of schedule.
- Increased automated test coverage from X% to X% using Jest and React Testing Library, reducing production bugs by X%.
- Mentored X junior developers on code standards, Git workflow, and component architecture.

Junior Web Developer | Company Name | Dhaka, Bangladesh

June 2021 – December 2022

- Converted X+ Figma designs into pixel-accurate, fully responsive interfaces supporting mobile, tablet, and desktop.
- Fixed X+ cross-browser and accessibility issues, raising the Lighthouse accessibility score from X to X.
- Automated the deployment pipeline with GitHub Actions, reducing manual release effort by X hours per week.
- Assisted in migrating a legacy jQuery codebase to React, improving maintainability and reducing bug reports by X percent.

Web Development Intern | Company Name | Dhaka, Bangladesh

January 2021 – May 2021

- Supported the development team in building and testing internal tools using HTML, CSS, and JavaScript.
- Wrote technical documentation for X internal APIs used by the engineering team.

PROJECTS

Project Name — React, Node.js, MongoDB, Stripe API

- Built a full-stack e-commerce platform with product search, cart, and secure checkout handling X+ test transactions.
- Deployed on Vercel with a CI pipeline; achieved a Lighthouse performance score of X.

Project Name — Next.js, TypeScript, PostgreSQL

- Created a task management dashboard with real-time updates, role-based access control, and analytics reporting.
- Open-sourced the project on GitHub, earning X stars and X community contributions.

Project Name — React Native, Firebase

- Developed a cross-platform mobile app for [purpose], with offline support and push notifications.

EDUCATION

Bachelor of Science in Computer Science and Engineering

University Name, Dhaka, Bangladesh

2017 – 2021 | CGPA: X.XX / 4.00
